ABOUT AUDAZ

Audaz (meaning bold in Spanish), is the first Twin Towers in the Financial District that dares to have it all. With a total of 16,800 sqm, Audaz includes Administrative, Medical, Commercial and Retail areas that bring together everything that could be needed in today's business.

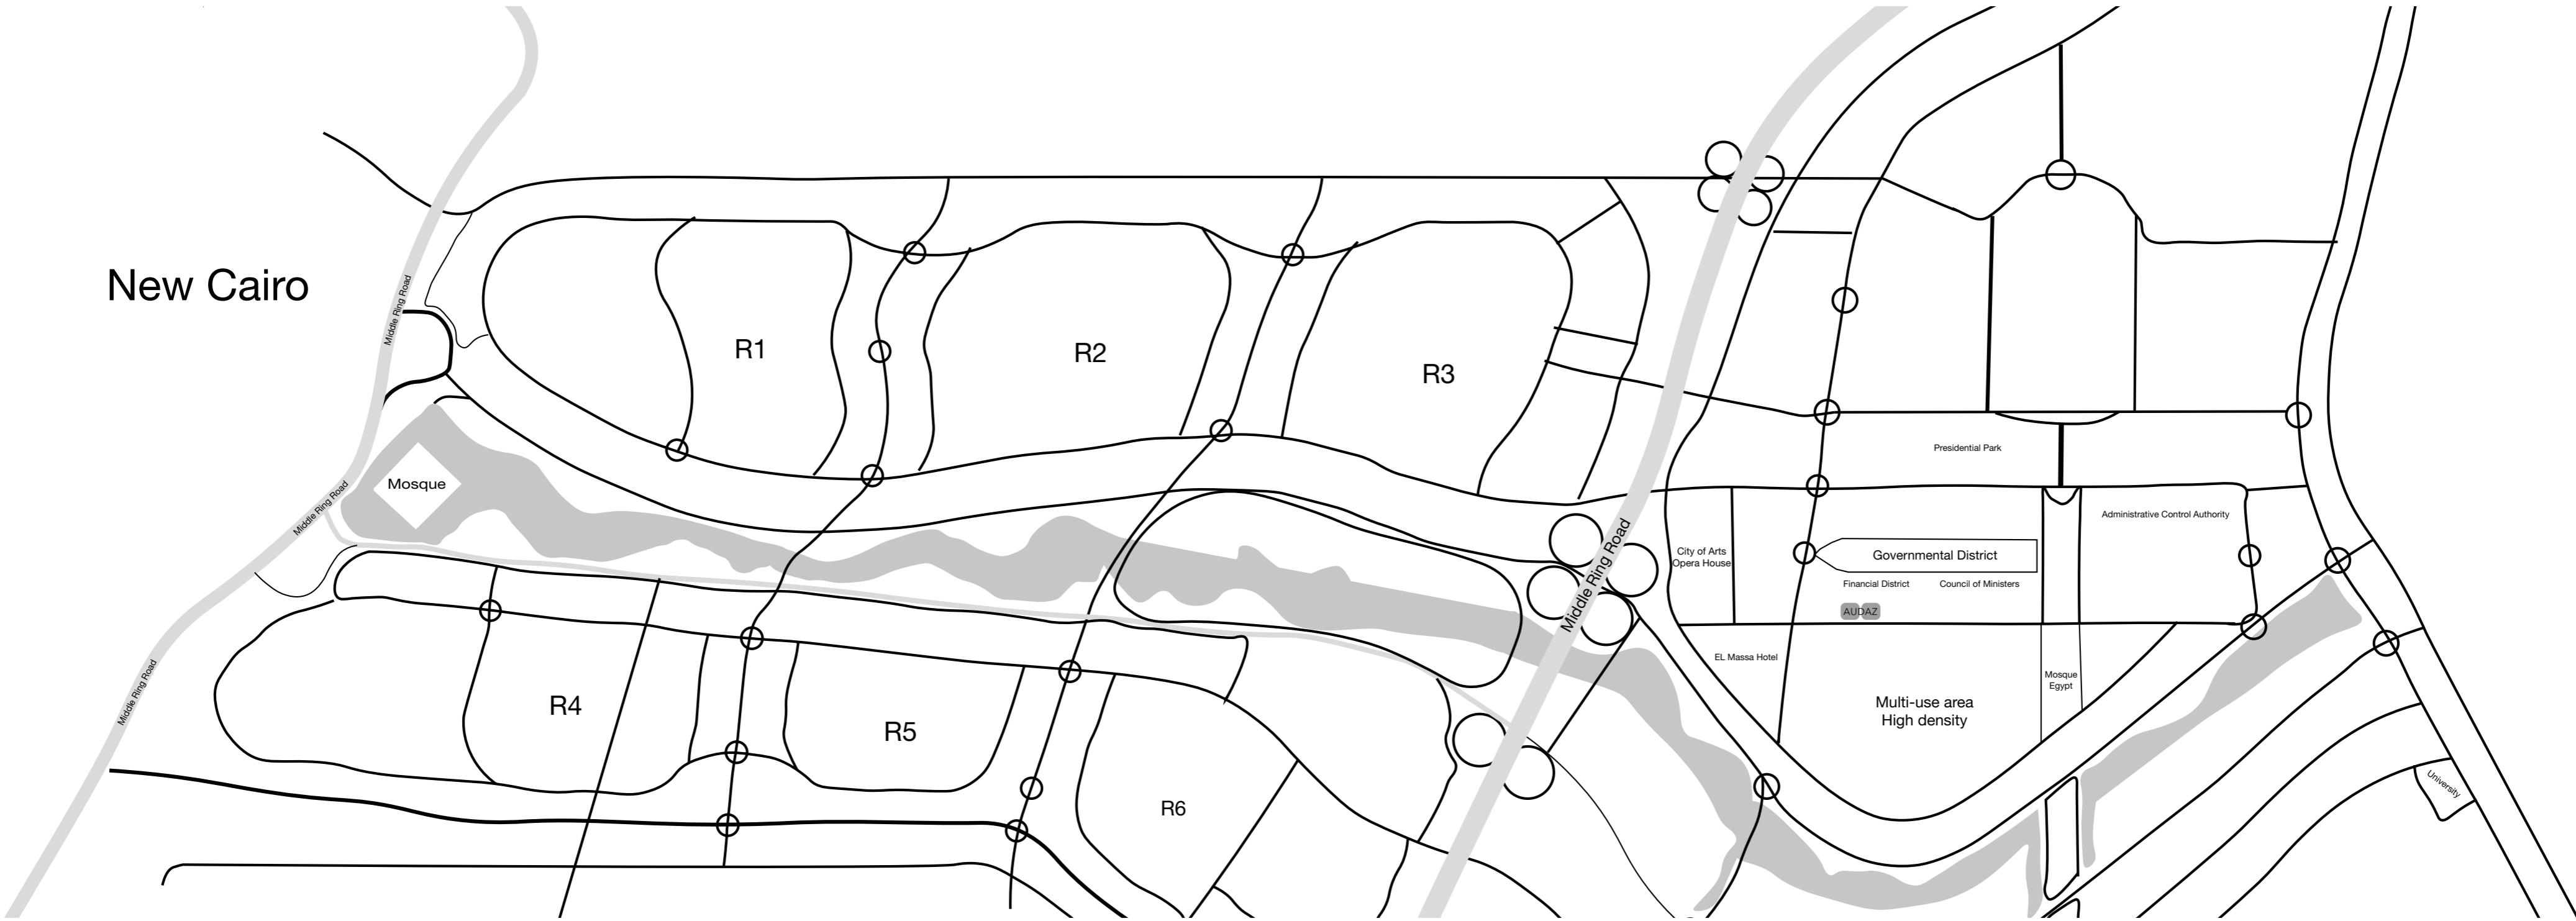

It features two interfaces on two main axes:

The First: A width of 94 meters away from the El Masaa Hotel, the largest City of Art and Culture in the world, and the entrance to the Government District.

The Second: A width of 45 meters away from the largest parks in the neighborhood of Financial district.

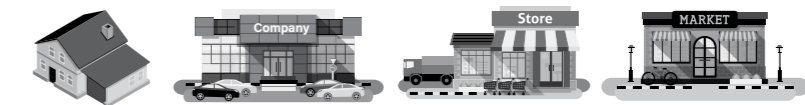

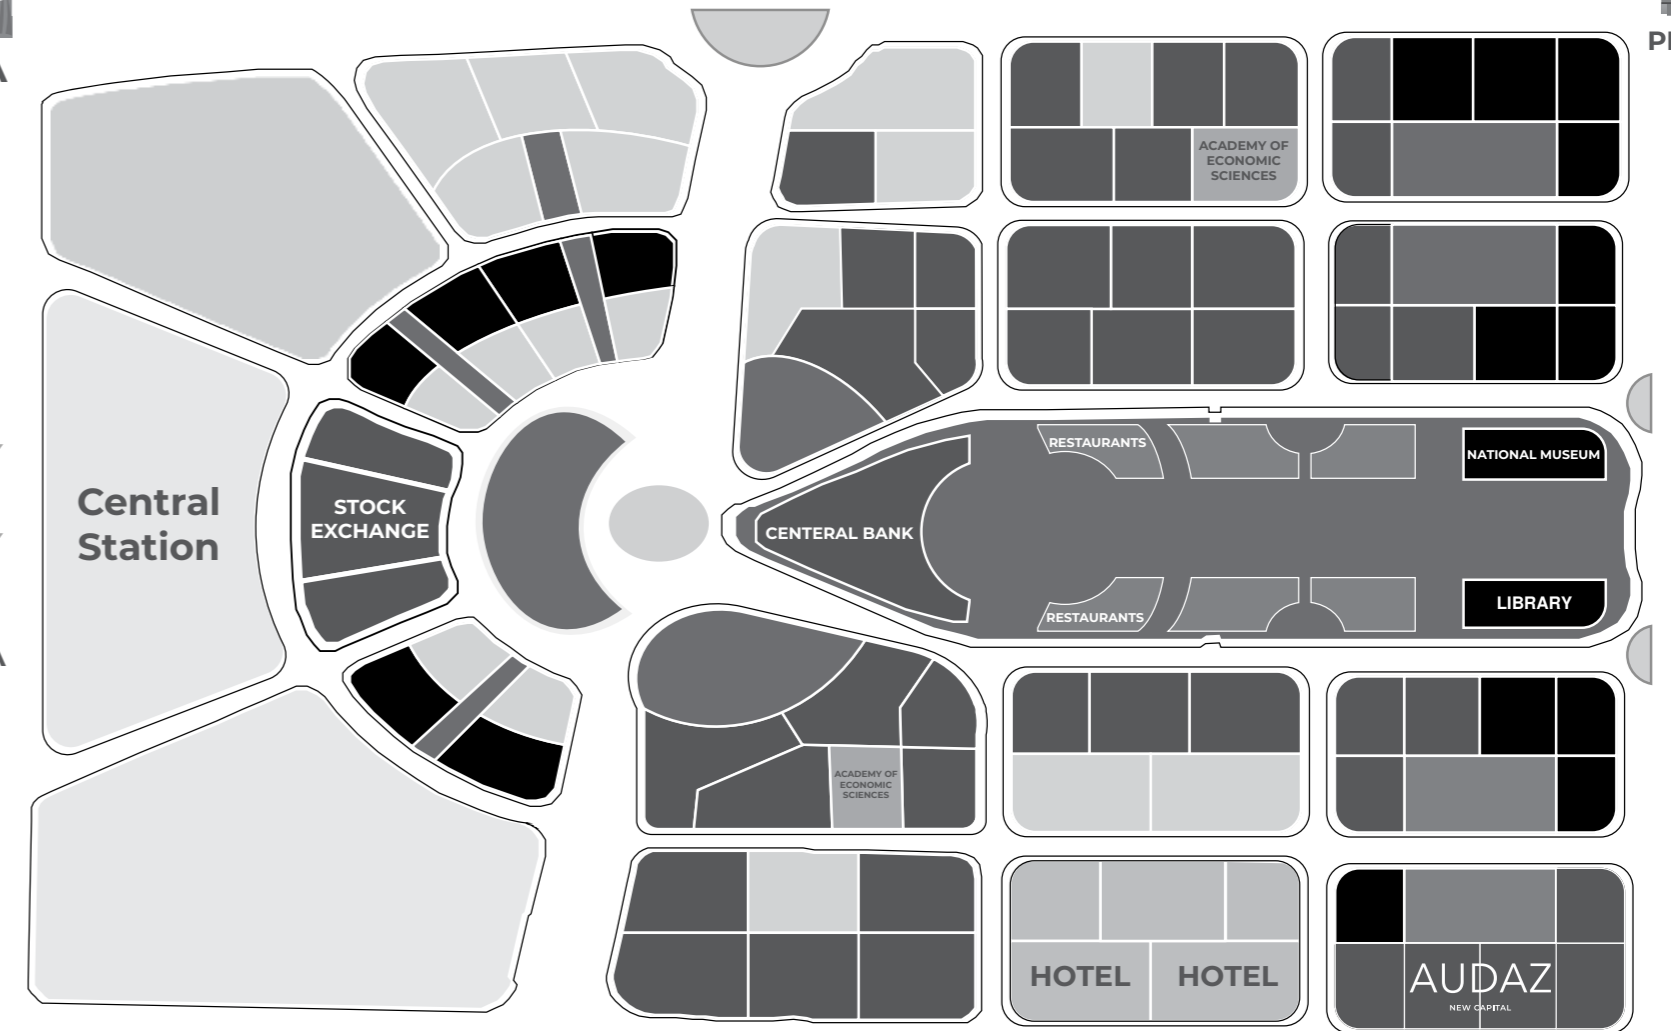

New Cairo

FINANCIAL DISTRICT

The entire financial district has approximately 71 blocks only and 80% of these blocks are already allocated to national and foreign Banks and mediated by the Central Bank and the Stock Exchange and Securities companies, Only 20% of these blocks are allocated to urban development companies and this confirms the scarcity of Administrative and Commercial spaces which are offered for sale, which gives more than wonderful investment value.

The first building: ground + first Commercial and from the second floor to the seventh floor Medical.

The second building: ground + first Commercial, and from the second floor to the seventh Administrative floor.
