With the vision of developing extraordinary communities and creating a wide range of luxurious unique homes, Elshahawi Properties was established in 2015 as a subsidiary of Elshahawi Group.

Elshahawai Group was founded in 1976 and started with the development of several residential buildings across Cairo. As a result, the real estate development company known as "Galalah" was formed and had its major breakthrough in Ein Sokhna through the initiation of "Ein Resort" in 1992, followed by "Ein Bay" in 1998. Further real estate activities commenced in 2005 when the company initiated "The Palm Islands " Project in Nae'ma Bay, Sharm El Sheikh. This was also the year that witnessed massive expansion into new business sectors, which prompted the expansion of Elshahawi Group to include several subsidiaries.
