ARCHITECTURE

OUR REAL DISCOVERIES COME FROM
CHAOS, FROM GOING TO THE PLACE
THAT LOOKS STRANGE AND DIFFERENT

Architecture

Building art is life in materialized form. It is architecture that represents our idea of quality of life and functionality for an ideal and pleasant living space.

Built on the successful foundations of G Cribs phase I, comes phase II. Whilst designing phase two of G Cribs, we emphasized on the successful elements that were in phase one such as having clear, fresh and white modern straight lines that compliment the sand, water and greenery of El Gouna. G Cribs therefore is a vision of serenity and harmony using soft tones that blend symphonically with the surrounding nature. The designs utilize voluminous living space with panoramic landscape views. Each unit is fundamentally designed to maximize the use of space and specifications with rigorously providing a panoramic view of greenery and swimming pools.

G Cribs phase II has a minimalistic and modern white approach when it comes to design.

The chosen 'en plein air' theme takes a cue from nature rather than being reinvented or mechanically influenced. Soft and cool hues blend with subtle warm tones to create a soothing escape from the everyday bustle.
