ALKARMA KAY

MASTER PLAN

Creating a close-knit community was our focus when designing AlKarma Kay. Bringing people with the same love of life, values and appreciation for luxury was our idea. So, we developed a modern boutique compound made up of two clusters on 18 acres of land with only 18% building space.

AlKarma Kay Master Plan

2 residential clusters

Water features in every park

1 clubhouse

Its 650 units are surrounded by 82% lush greenery and beautiful water features. A vast pool sits between both clusters inviting our trendsetting community to bond and get closer on long summer nights.

It offers different unit types and sizes to fit your different needs. With its modern architectural design, retail and office spaces AlKarma Kay was designed to give you an effortless life with a contemporary vibe and never-ending joy.

ALKARMA KAY CLUSTERS

2 Clusters, 2 Flows of Energy

CLUSTER ONE

The first cluster is the place where our trendy community comes to life. It holds the compound's various facilities including the clubhouse, pools, gym and kid's area. The clubhouse will be a happening spot for homeowners.

The pool and gym will be your sanctuary after a long day around town. At the kid's area, your child will probably meet their lifelong friends. AlKarma Kay is a community where you feel you belong and everything you need right at your doorstep.
