MEDICAL COMPLEX

From Doctors
To Doctors

The First Medical Complex in The New Capital

River Green, The New Capital's first-ever Medical Complex overlooking the iconic tower and green river, is located right in the heart of the Capital.

The project is in the mu-23 district on an area of 3500 Msq, with 30% of buildings and 70% greenery. Rivergreen was designed in accordance to Universal Health Insurance and to the highest of standards and guidelines of both, Kings College (ISO), and the World Health Organization (WHO).

MESSAGE FROM THE CHAIRMAN

From Doctors to Doctors

A massive project like the New Administrative Capital definitely requires an integrated, equipped, and smart medical complex. Designed in compliance with the highest standards and Guidelines of both King's College & The WHO & health insurance system.

We are proud of being responsible for such a complex and gigantic medical project, we put all our previous experiences, especially in the medical field due to our long history of developing medical projects.

Thus, we are fully aware of all the smallest and most accurate details that serve the most significant needs and requirements of doctors.

Dr. Mahmoud El-Adl

- C.E.S Degree in Sports Medicine, France.
- Super Visorw of The Medical Committee of The Egyptian Handball Federation.
- Vice Chairman of The Medical Committee of The Arab Handball Federation.
- Board Member of the Egyptian Handball Federation.
- Holds the Order of the Republic "First Degree".

We are Master Builder Group (MBG) the creators of PUKKA, we have dabbled in medical, residential, administrative, and educational sectors from architectural design to construction phases.

We believe having a unique project that stands the test of time, the first step is selecting a prime location, this mindset has been carried out throughout all our projects.

Excelling in all these areas solidifies our reputation as a pioneering major developer in Egypt.

MBG is the proud developer of Pukka New Capital which is a luxurious community with all the facilities and amenities required for a resident.

PUKKA was just the start of our success story in the new capital, which will set a path for MBG to take over the real estate realm.

Hope our brochure finds you well as this was meant to be delivered just for you, Doctors.

We're honored to introduce to you our next-gen project.

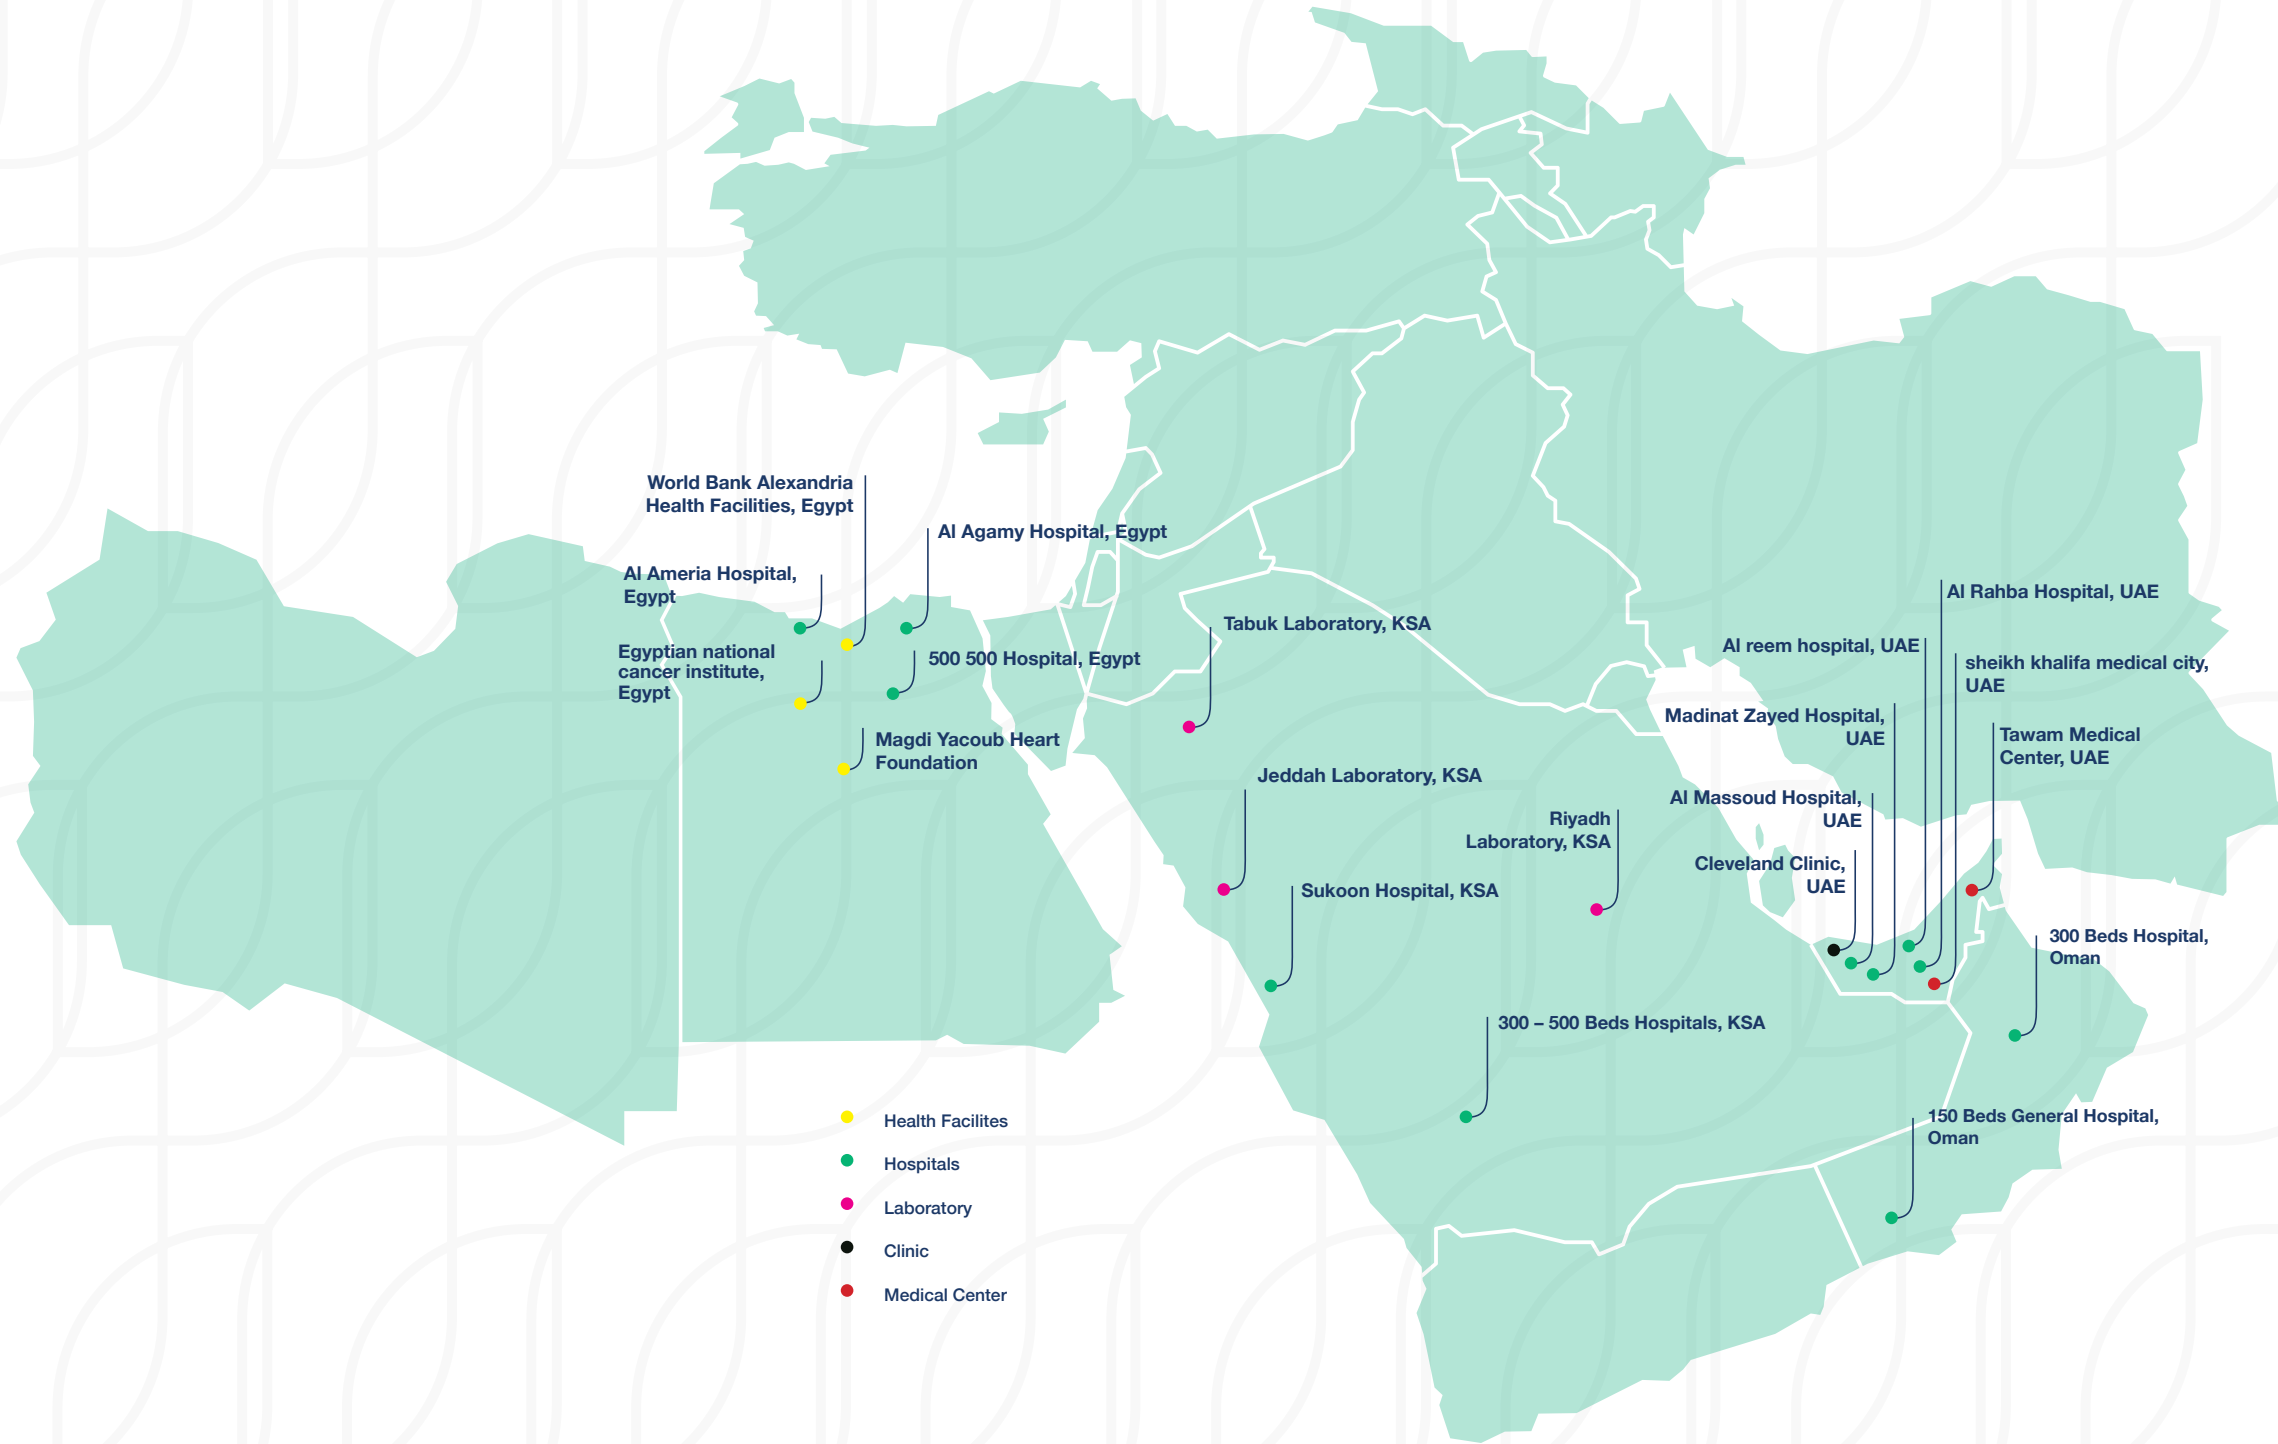

With well-known medical Projects all over the middle east region, EHA is the exclusive engineering and execution consultant for Rivergreen.

EHA consulting engineers was founded at EGYPT in 1971 and has emerged as an international world-ranked firm that is registered in UAE, KSA, Qatar and Oman.

With more than 1,800 Professionals, EHA offers design, Engineering, Construction Supervision and project management services to almost all types of projects and market sectors.

M E D I C A L C O M P L E X

Our previous experience in the medical field made us consider your smallest to your most significant needs, thus we came up with the best solutions to grant you the most prominent experience.

- The first-ever medical complex in the New Administrative Capital
- Equipped with state-of-the-art facilities that are of international standard
- Unbeatable view of the green river overlooking the iconic tower.
- Made specifically for medical use with an elite standard for medical professionals

To sum up, this is an ultimate innovative medical complex , not just a normal medical complex.

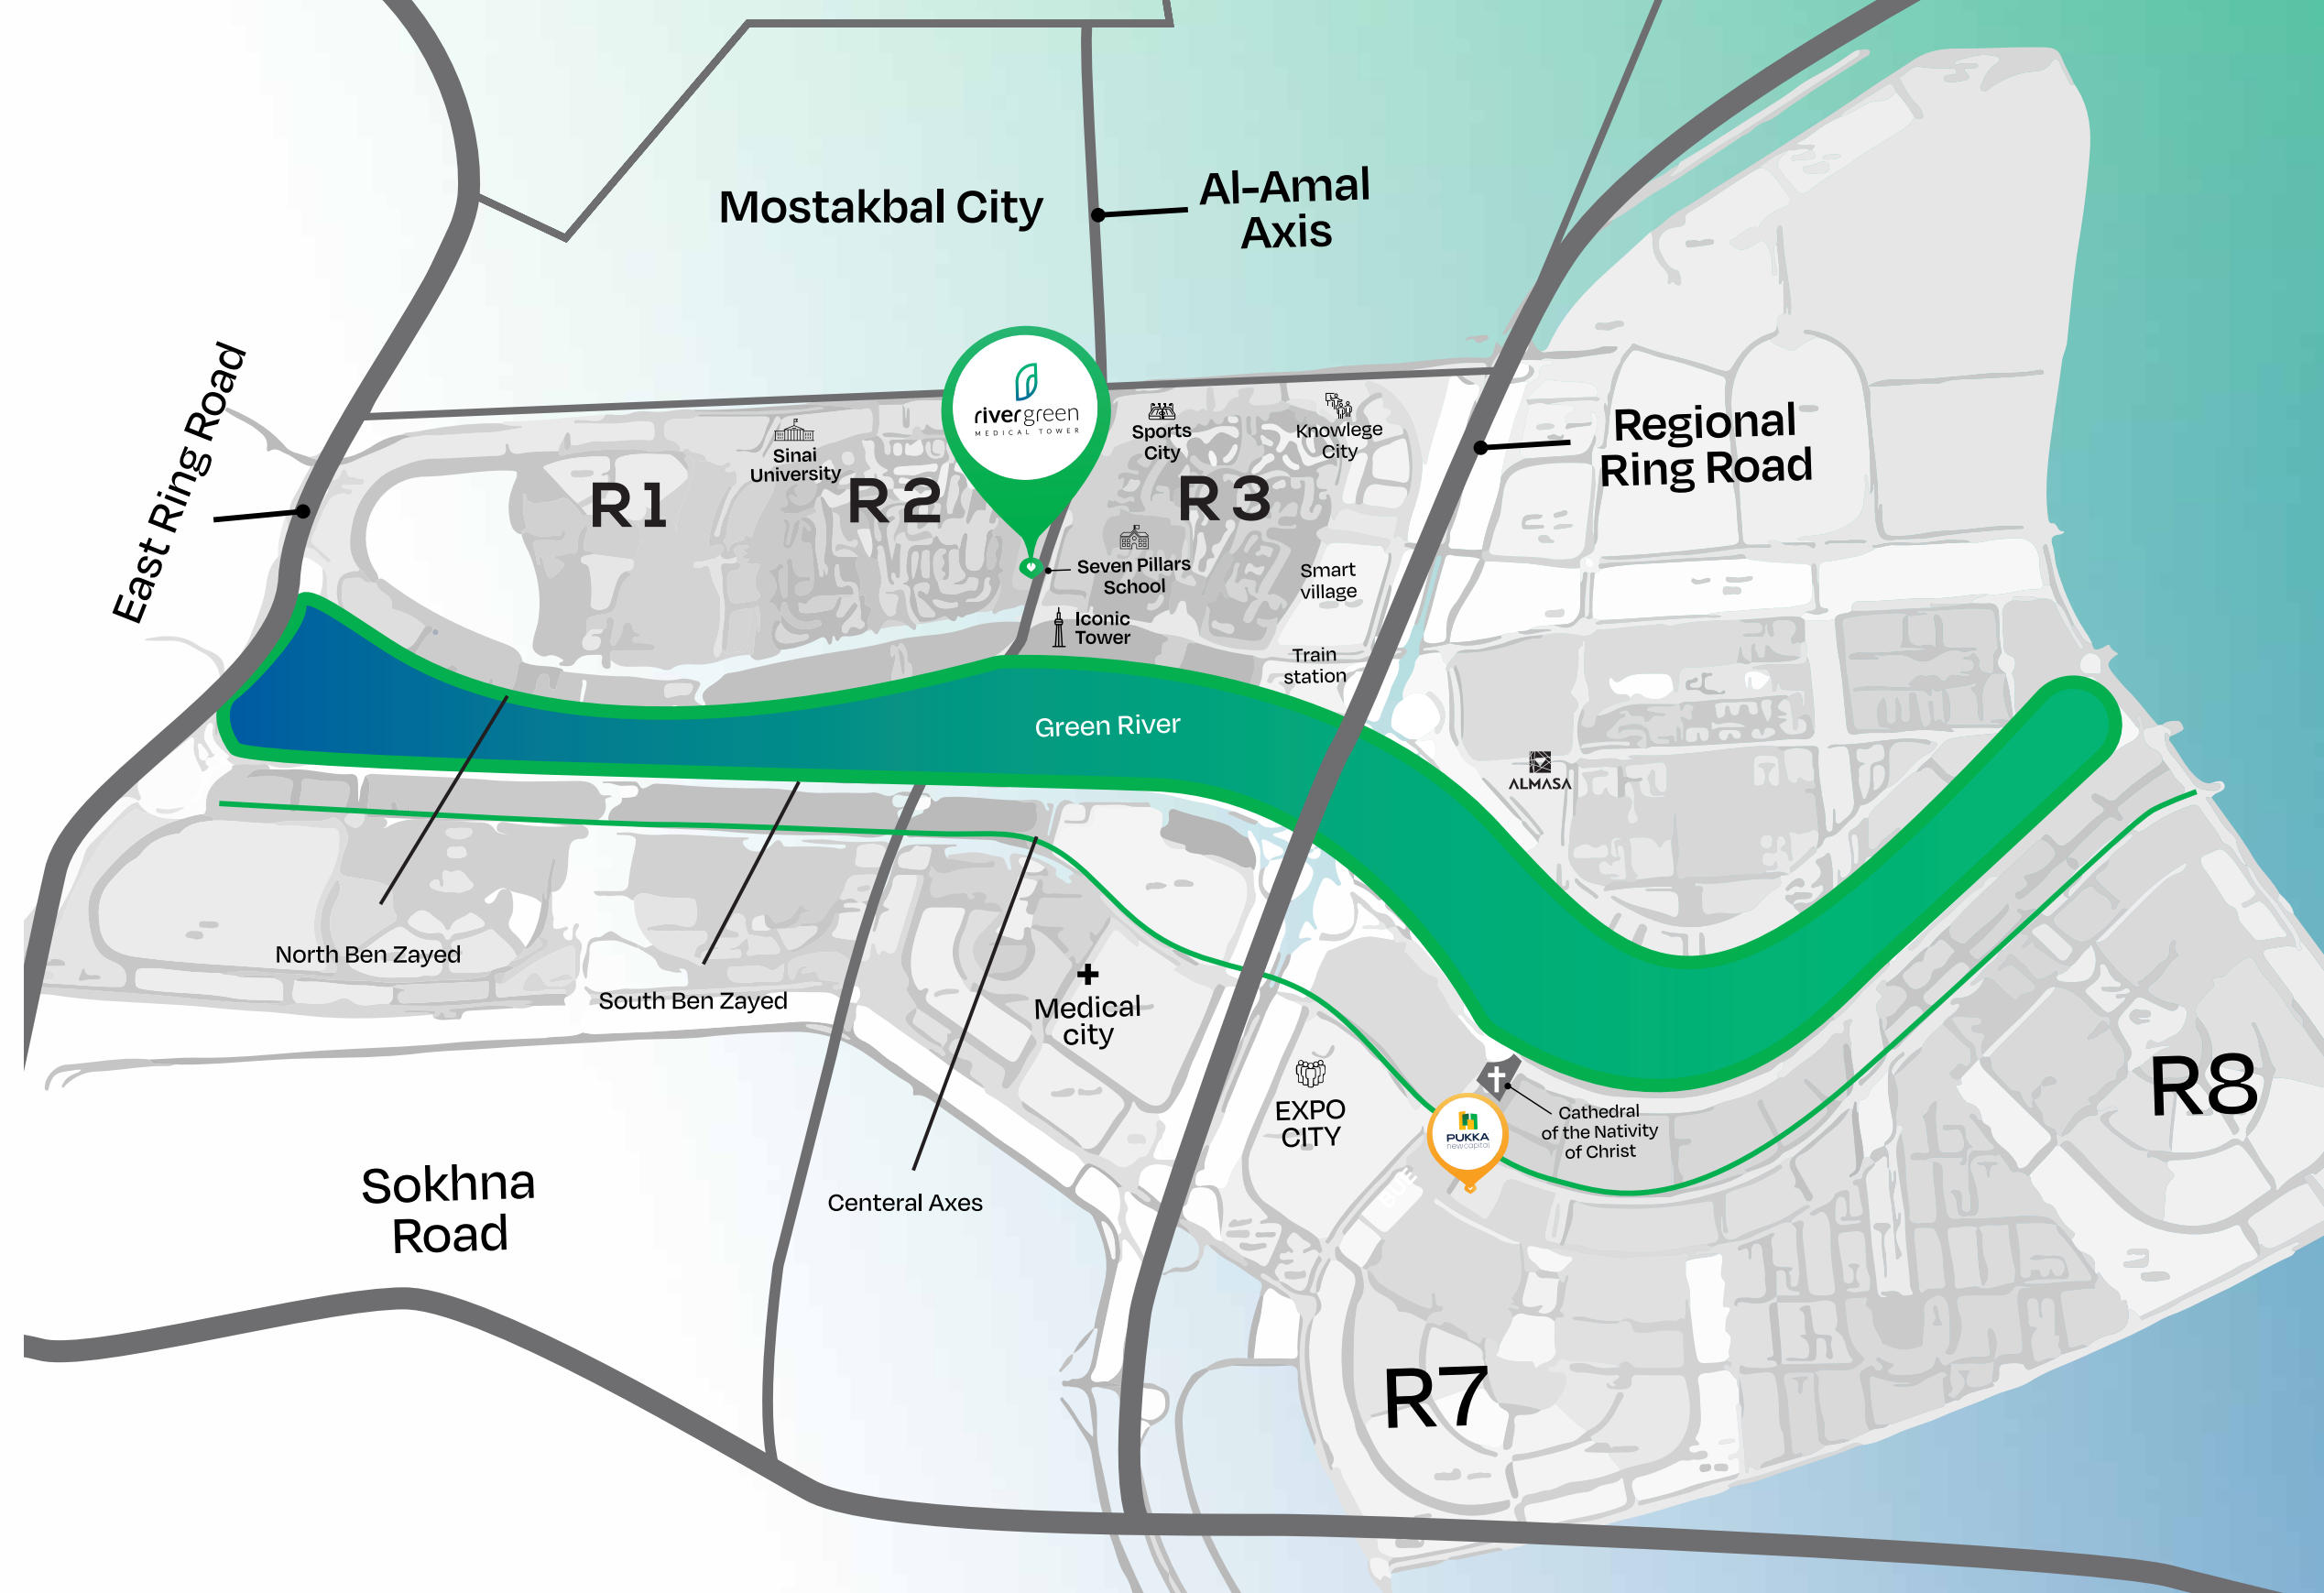

PROMINENT LOCATION

Directly on El Amal axis, one of the most important main roads leading to and from the new Capital connecting you to everything - Rivergreen's location is strategic in practicality and in traffic.

Right in the heart of the Capital's most famous commercial/administrative/medical area, MU23 is surrounded by the capital's most essential land marks including the green river, and the highest tower to ever be built in all of Africa.

Being the only medical center around, River Green will be serving the two largest residential areas in the Capital, the entire commercial/administrative/medical area, as well as serving areas outside the capital, like Madinty and Sherouk.
