Urban Nature

Introducing Etapa

A concept driven from the belief that nature and cities can co-exist, Etapa is bringing a new residential theory with an authentic vision to the real estate scene in Shekiah Zayed City. A new living concept that responds to those submerged in the daily modern life and their innate craving to immerse themselves into the physical beauty and the inherent unity of the natural world.

Etapa takes a leap of imagination to bring nature and city in one frame through innovative urban planning, unique architectural styles, smart design choices, and the genuine community it aspires to bring. Inspired by its name “Etapa” – Spanish word to “Stages” reflected in its land elevation, our residential project is laid out on 77 Feddans of land on a 22-meter platform higher than its surroundings allowing residents to rise above it all.

Etapa dedicates 84% of its building area to layers of greenery, parks, gardens, and other unique open spaces. With only 493 residential units on display, Etapa achieves an exclusive low density gated community with an array of amenities that adequately cater for its residents.

Location map

Navigate your dreams.

Being one of the last land plots existing in the center of Sheikh Zayed City, surrounded by a variety of gated communities and only a few minutes away from all the necessary amenities our residents will need - Etapa strategically places its community close enough to everything it needs such as hypermarkets, retail districts and top-end entertainment destinations in the area; yet far enough from the unstoppable blaring city life.

It also ensures that our residents have access to all the goods and services they require at the time it is needed as Etapa is within proximal reach to the Cairo-Alex Desert Road, the 26th of July Corridor, and the Ring Road.

Etapa's location promises to provide a livable operating community from day one.
